Laurel,

As part of my description of a 'successful meeting' yesterday, I indicated it would include the substantive elements of the Project Plan and its attachments like the Roles & Responsibilities and the IAG Work Order. This would include the project schedule and the process for review and commenting on Argonne deliverables. The Tribes' reps have the drafts of these documents and our request is for them to provide written comments by 6/2/12 to EPA so we have a chance to review them prior to the 6/10 meeting. Hopefully this will help us to achieve the desired agreement on the language in those documents as an outcome of the meeting. Feel free to let me know if I can provide additional clarification.

Note that I am providing a copy of this email string to the Tribes for transparency.

Thanks,

Greg

Greg,

Patty and I have completed the Summary Notes from yesterday's call, but I have one important area I need to clarify before sending these to Michael.

During the call most participants referred to the "Workplan." You stated the correct language is the "Work Order" which I understand is the *IAG Work Order*. You also referred to the other two documents (*Project Plan* and the *Roles and Responsibilities*). The draft version of these three documents is 3/7/14.

At the Salt Lake City meeting, are we working solely to finalize the *IAG Work Order*, or are we working to finalize the *Project Plan* and *Roles and Responsibilities* as well?

Thank you,  
Laurel
